This amendment is issued to answer Bidder's questions related to section 3.1.4.

3.1.4 Mandatory Company Documentation

It is mandatory that a letter from the OEM be submitted with the proposal. If not included with the proposal, the bid will be deemed non-responsive. The letter must confirm that the Bidder:

1. is an OEM (Original Equipment Manufacturer);or
2. is an authorized service agent of the OEM or;
3. has valid and recognized sub-contracting agreement with the OEM or one of its authorized agents for the following major system components:
 - 3.1. Fire alarm Control Unit
 - 3.2. Fire Pump Transfer Switch / Control Panel
4. has access to the following in order to, service and maintain the components, sub-systems, systems and integrated systems identified within the attached inventory:
 - 4.1. Service and maintenance tools & materials;
 - 4.2. Compatible parts;
 - 4.3. Software;
 - 4.4. Hardware;
 - 4.5. Firmware
5. has access to the complete operational and adjustment procedures of the OEM for all components, sub-systems, systems, integrated systems and related equipment identified within the attached inventory. This includes direct access to manufacturer's technical support service and service bulletins.

Q1) Is it the intent of this section to allow any OEM to prepare a proposal or is the OEM referenced in section 1 above required to be the OEM of the equipment currently installed at the facilities?

A1) Companies can bid on this requirement by submitting documentations confirming either 1,4 & 5, or 2,4 & 5 or 3,4 & 5.

Q2) Is it sufficient to satisfy section 2,3,4and 5 if the bidder submits an e-mail or a letter from the OEM confirming that the bidder is a customer of the OEM for service calls and/or panel replacement parts on behalf of the building owner?

A2) In case the bidder is not the OEM or not an authorized service agent, the bidder must submit documentation as required on 3,4 & 5 above to be considered responsive.
