## **RFI EN578-151297/B AMENDMENT NO. 3**

Amendment 003 is raised to respond to questions about the RFI:

### **1. Questions and Answers**

Note: Questions may have been modified and/or condensed.

- Q1. There is one question for which we would like guidance on in the RFI. Specifically, question 34 in the RFI regarding Supply Chain integrity. Are you asking to know more about our security procedures regarding procuring the hardware we deploy into our cloud solution? Or is the question about our operational security procedures and policies of our cloud solution and how they would match those of the Canadian government?
- A1. The federal government is interested in understanding how supply chain integrity can be addressed while using cloud solutions, and secondarily if supply chain integrity should be applied to all cloud services. This question is not meant to be limited to either just the hardware behind a cloud solution or the policies and practices in place, it is meant to be open and seek information on all aspects influencing supply chain integrity with cloud services. The response can describe an organization's internal security procedures and any other information an organization deems relevant to help inform the government on this position.
- Q2. In looking at some of the security information we would like to include into the RFI, we would ask that we have an NDA signed.
- A2. Canada would like to confirm that all members of the Cloud consultations working group will be required to sign both a non-disclosure agreement (NDA) and a non conflict of interest certification before being granted access to the RFI responses. Information marked confidential by the respondent will be treated as such. Suppliers wishing to see the NDA form can request it by sending an email to:  
[TPSGC.ConsultationsINformatique@tpsgc-pwgsc.gc.ca](mailto:TPSGC.ConsultationsINformatique@tpsgc-pwgsc.gc.ca)

**All other terms and conditions remain the same.**
