AMENDMENT #6

This amendment is put in place to correct a discrepancy between Annex B - Basis of Payment and Annex A - Statement of Work RFP and to issue the sixth set of questions and answers..

1.0 Delete Annex "B" Basis of Payment, Article B.1, Table named **OPTION 1 (WP3.3.5.1)** in its entirety.

Insert:

OPTION 1 (WP 3.3.5.1)

Milestone ID	Milestone Description	To be Completed On or Before (Month After Option Award)	Value of Milestone (Total maximum value of \$200,000.00)
1	NeMO SAR Requirements Review	4 MAOA	100% of option total value

QUESTIONS AND ANSWERS

Question #11: The SOW for Option 2 (Earth Observation Applications), Section 3.3.5.2 currently states the following:

"The initial requirements will be made available to the Contractor about one month before the Final Review of the NeMO sub-surface mapping. The Contractor shall produce a first assessment of the NeMO SAR payload for EO application and what are the modifications to the concept payload could be proposed for permafrost application. If the assessment is deemed positive, CSA will exercise an option to initiate an activity to repeat the tasks described in Section 3.3.1."

Prospective Bidder currently interprets the SOW for Option 2 in the following manner:

- Contractor receives the initial EO requirements about one month before the Final Review Meeting of the baseline study (main requirement). No work or deliverable is required at this point, and the Contractor has not budgeted for the first assessment for EO application as part of the baseline study.
- Option Award (OA) takes place after the baseline study FRM. Following OA, the Contractor is authorized to produce a first assessment of the NeMO SAR payload for EO application.
- The first assessment is presented at the Technical Interchange Meeting.

-
- If the assessment is deemed positive, CSA authorizes the continuation of Option 2 activities to conduct a preliminary identification of modifications to the payload concept, which are then presented at the EO Payload Trade-Off Review.
 - If the assessment is deemed negative, CSA discontinues the Option 2 activities and the TIM becomes the final milestone.

Please indicate if the above interpretation of the Option 2 SOW is correct.

Answer #11: The text of the SoW state that the first assessment of the NeMO SAR payload for EO application needs to be performed prior to CSA exercising the option. This first assessment should be clarified to be high level only aimed at determining if further work should be carried to adapt the NeMO SAR payload for EO application.
