**Question Received as of 21 July 2017 for Solicitation No W8474-167196/D**

Q5. **Reference: Annex B – Technical Specifications Para 3.1.1**

In regard to the present RFSO, the radio that you are asking for needs to cover the full band. Can we offer a radio that can covers the low band VHF (30-88MHz), VHF (136-174MHz) and UHF (330-520MHz).

Can you please explain why the radio has to do the entire 30-512 MHz in one radio?

A5. [We are unable to reveal operational needs that have resulted in the 30 – 512 MHz requirement. The proposed breakdown of the frequency band will not fulfill DND's requirement and will be deemed non-responsive.](#)
