AMENDMENT 003

The purpose of this amendment is to answer the following questions that have been raised and to make a correction to section RESULTING CONTRACT CLAUSES, 6.4 Term of Contract.

Q6: Is the intent for the system to be skid mounted and installed in a climate controlled building or that it be rated for outdoor installation/use?

A6: Yes, the system will be mounted in a climate controlled building.

Q7: Is there a water analysis or raw water design criteria to use, or should we make assumptions based on the raw water description of "Arctic near-shore salt water"?

A7: Arctic near-shore salt water is the best description that can be provided.

Q8: Is there a specification for the required quality of treated water, or should all maximum acceptable and aesthetic objectives of the Guidelines for Canadian Drinking Water Quality be used?

A8: There is no specification, however your suggestion for maximum acceptable and aesthetic objectives of the Guidelines for Canadian Drinking Water Quality is acceptable. Also, for your information, after the water is made, it will go through an Ultraviolet and Brita© filter system before human consumption, the rest is for laundry and showers.

Q9: The intake hose is included in the scope of this system, is there a requirement for heat-trace/insulation of this hose?

A9: There is no need for heat-trace, we will be there in the summers, so this is not an issue.

Refer to Part 6 – RESULTING CONTRACT CLAUSES, 6.4 Term of Contract

DELETE:

6.4.1 Delivery Date

All the deliverables are to be received two (2) to four (4) weeks after receipt of order.

INSERT:

6.4.1 Delivery Date

Supplier to indicate best delivery date _____. **NOTE:** Two (2) to Four (4) weeks delivery is the desired timeline.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
