This solicitation amendment 005 is being raised to re-answer question one on amendment 004 as follows:

**Delete Question and Answer 001 on Amendment 004 in its entirety:**

**Insert:**

**Question 1**

Air quality monitoring: What is required for air quality monitoring? Is this primarily for dust and debris or does this include monitoring for VOCs and other fumes from the hydrocarbon laden soils?

**Answer 1:**

“As per Section 01 35 29.13, Clause 1.13.1, an air monitoring program is required. As per Section 01 35 13.43, Clause 1.12.7, air quality monitoring is required for dust and particulates, and per Clause 1.13.7 of the same Section, volatile organic monitoring is also required. The contractor is to have an air monitoring program in place to demonstrate that potential receptors are not affected by dust, particulate or volatile organics that may be generated by the contractor’s activities on site.”

**ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.**
