

**Bid solicitation process # 84084-19-0109 Data Visualization Computer Coding and Development
Response to bidder question # 2**

Question	Response
<p>Annex A section 3.1.2 and 3.1.7 and where the work is to be performed. Section 3.1.2 indicates, “Support, update, upgrade and maintain visualizations: Provide 3 resources – one junior, one intermediate, and one senior – <u>to work in-house</u> at the CER to provide ongoing technical support, including additional development/coding and or integration efforts to ensure the existing visualizations, including pilots remain viable and functional on the CER’s external website”, while section 3.1.7 indicates, “The contractor will provide space for most of their resources to work in addition to <u>supplying work space</u> for up to 2 individuals from the CER or other contractors to work when required. This is anticipated to be two half-days per month when new visualizations are being developed.”</p> <p>Do these sections mean the contractor’s team will work at the CER at all times except for two half days? For the two half days, the contractor’s team and CER staff will work at the contractor’s office?</p>	<p>One junior, one intermediate, and one senior resource provided by the contractor will be required to work at the Canada Energy Regulator (CER) offices in Calgary during the period of the resulting contract to provide ongoing technical support, including but not limited to additional development/coding and or integration efforts to ensure the existing visualizations and pilots remain viable and functional on the CER’s external website.</p> <p>During the term of the contract, a task authorization process will be used to resource and cost new projects as and when required, to be performed at the contractors’ premises. For such tasks, the contractor will be responsible for providing work space to accommodate its own staff. Additional work space will be required for two (2) individuals on the team working on the project on behalf of the CER for approximately two half-days in a month so team members can work side by side collaborating on project milestones.</p>
<p>Is there someone currently, or has there been someone in the past providing similar or relevant services Who has been providing these services What is (or was) the contract value what is (or was) the duration of the contract (including any extensions) Are they allowed to bid on this opportunity</p>	<p>An organization is currently providing services similar to some of the services required under the subject bid solicitation process. The organization providing the services was Vizwork Inc. The information is available on Open Source Data. The value of the Contract was approximately \$ CAD \$ 1. 88M The duration of the contract was from November 2016 to October 2019. This bid solicitation process is subject to open tendering and any supplier may submit a bid.</p>
