Offerors must clearly outline the suggested improvement as well as the reason for the suggestion. Suggestions that do not restrict the level of competition nor favour a particular Offeror will be given consideration provided they are submitted to the Standing Offer Authority at least twenty (20) days before the RFSO closing date. Canada will have the right to accept or reject any or all suggestions.

5. Enquiries - Request for Standing Offers

All enquiries must be submitted in writing to the Standing Offer Authority no later than ten (10) calendar days before the Request for Standing Offers (RFSO) closing date. Enquiries received after that time may not be answered.

Care should be taken by offerors to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that offerors do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all offerors. Enquiries not submitted in a form that can be distributed to all offerors may not be answered by Canada.

6. Applicable Laws

The Standing Offer and any contract resulting from the Standing Offer must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Offerors may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their offer, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the offerors.

PART 3 - OFFER PREPARATION INSTRUCTIONS

1. Offer Preparation Instructions

If the Offeror chooses to submit its offer electronically, Canada requests that the Offeror submits its offer in accordance with section 8 of the 2006 standard instructions and as amended in Part 2 - Offeror Instructions, Article 2.1 Standard Instructions, Clauses and Conditions. Offerors are required to provide their offer in a single transmission. The epost Connect service has the capacity to receive multiple documents, up to 1GB per individual attachment. The offer must be gathered per section and separated as follows:

Section I: Technical Offer
Section II: Financial Offer
Section III: Certifications

If the Offeror chooses to submit its offer in hard copies, Canada requests that the Offeror provides its offer in separately bound sections as follows:

Section I: Technical Offer (1 hard copy)
Section II: Financial Offer (1 hard copy)
Section III: Certifications (1 hard copy)

Prices must appear in the financial offer only. No prices must be indicated in any other section of the offer.

Canada requests that offerors follow the format instructions described below in the preparation of their offer.

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to that of the Request for Standing Offers.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, offerors should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Offer

In their technical offer, offerors should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

A. Consolidated Requirement and Zones

The requirements shown at Appendices "A" and "F" have been arranged by product type and delivery method within zones (geographical areas). Where there is more than one individual requirement for a particular product type with the same delivery method within a zone, the quantity of each individual requirement has been consolidated into one requirement. In such instances, the Offeror must quote a price per litre applicable to the entire consolidated requirement.

An offer contingent on supplying only a portion of a consolidated requirement will result in the offer being declared non-responsive. Any other conditional offers will be declared non-responsive.

B. Paired Requirements

Notwithstanding the above, it is mandatory that each paired requirement listed below be supplied by the same supplier. For these requirements, Canada will only consider those Offerors who submit a compliant offer for each requirement making up a pair.

Paired Requirements:	NL001 53/IP	and	NL001 54/IP
	NS051 53/IP	and	NS051 54/IP

CANADIAN UNBRANDED RACK PRICES

The Kent Group "Wholesale by Marketer" Monday to Friday Average Daily Rate for "Premium Gasoline" as published on <https://charting.kentgrouppltd.com/> will be used.

AREA OF COVERAGE FOR EACH REFERENCE MARKER

The unit prices shown at Appendix "A" for Aviation Turbine Fuel, for requirements in the province of British Columbia and the Yukon Territory, are subject to adjustment using the Reference Marker _____ (*Standing Offer Authority will indicate either "USGC" or "LA PIPELINE" as selected by the offeror in Part 3, section 3, Unit Price Adjustment of Part*) detailed above.

The unit prices shown at Appendix "A" shown at Appendix "A" for Gasoline Aviation Grade 100LL are subject to adjustment using the Reference Marker described in "Canadian Unbranded Rack Prices". The designated centers are as follows:

Montreal for requirements in the province of Québec;
Toronto for requirements in the province of Ontario;
Edmonton for requirements in the province of Alberta, Manitoba, and Saskatchewan;
and.
Vancouver for requirements in the province of British Columbia.

II. METHOD OF CALCULATING UNIT PRICE ADJUSTMENTS

Firm unit prices shown at Appendix "A" will be subject to upward or downward adjustments using weekly price changes, detailed below.

Weekly Price Adjustment Effective Day:

After the initial price adjustment, which comes into effect on June 1, 2020, all subsequent price adjustments will come into effect at 12:01 AM on _____ of each week. (*Standing Offer Authority will indicate the day of the week as selected by the offeror in Part 3, section 3, Unit Price Adjustment*)

An adjustment to the unit prices will be calculated as indicated hereunder.

a) Initial Adjustment: the unit price adjustments effective on June 01, 2020 will be equal to the applicable Reference Marker price for the week ending May 29, 2020 ('B' week value) minus the applicable Reference Marker price for the week ending on February 14, 2020 ('A' week value) plus the offer price;

b) Subsequent Weekly Adjustments: the unit price effective on day of the week identified above for every subsequent week will be equal to the Reference Marker price for the previous week minus the 'A' week value Reference Marker price plus the Offer price.

For Reference Markers, "NYHB", "USGC" and "LA PIPELINE", the average weekly price will be:

a) converted from U.S. funds to Canadian funds using the week average of the Bank of Canada official exchange rate for the corresponding week and;

b) converted from U.S. gallon to litres using 3.785412 as the conversion factor.

The Reference Marker price converted to Canadian dollars per litre will be rounded to four decimal places to the nearest hundredth of a cent per litre (\$0.0001/litre). Not considering any resultant value in the sixth decimal place, the fifth decimal place will be rounded as follows; less than or equal to \$0.00004 rounded down, \$0.00005 - \$0.00009 rounded up.

Example calculation using the "LA PIPELINE" Marker:

(This is for example purposes only and does not commit the Crown to anything).

(All prices indicated are for example purposes only)

Related "LA PIPELINE" marker price for week ending November 25, 2011 = \$ 3.0608

Related "LA PIPELINE" marker price for week ending February 03, 2012 = \$ 3.0910

Bank of Canada official exchange rate average for week ending November 25, 2011 = \$ 1.0438
per U.S.dollar

Bank of Canada official exchange rate average for week ending February 03, 2012 = \$ 0.9997
per U.S.dollar

Offer Price = Cdn \$ 1.0254 per litre

Litres in a US gallon = 3.785412

a) $(\$ 3.0608 \times \$ 1.0438) / 3.785412 = \$ 0.843993$ rounded to Cdn.\$ 0.8440 per litre

b) $(\$ 3.0910 \times \$ 0.9997) / 3.785412 = \$ 0.816310$ rounded to Cdn.\$ 0.8163 per litre

c) b) minus a) = Cdn \$ -0.0277 per litre

d) c) + Offer Price = Cdn \$ 0.9977 per litre

UNIT PRICE ADJUSTMENT SCHEDULE

Unit prices shall only be adjusted on the relevant *Unit Price Adjustment Effective Date* and shall remain *in effect until the next scheduled Unit Price Adjustment Effective Date*.
