**PART TWO – QUESTIONS AND ANSWERS**

No.	Question	Response
021	<p>We wish to submit a very high quality offer of services. With the issuance of the four (4) addenda last week and this week, we are afraid of running out of time to adequately meet the high expectations of PWGSC.</p> <p>Do you think it would be possible to extend the tender period by one week?</p>	<p>Yes, please refer to Change 8.</p>
022	<p>Please clarify certain points, as the English text does not correspond to the French one.</p> <p><u>3.2.5 Hypothetical project</u></p> <p>1 b.</p> <p>In the section describing the context of the project, reference is made to the "historic sites of the institution", which may imply protection statutes, such as a national historic site. In English, we refer to a "Landmark Institution", which refers more to a benchmark institution.</p> <p>2 a ii</p> <p>When we talk about the objectives of the project, we talk about an "improvement of the regulation" in French, which can imply technical controls more in connection with the management of the building systems. However, in English this same objective is stated as being "improving the setting", which implies improving the landscape framework.</p> <p>4 b.</p> <p>In the French version, when we talk about the philosophy of the conservation approach and design philosophy, we are referring to "seismic requirements". However, in English it is referred to as "addressing security challenges".</p>	<p>The reference should be that the Supreme Court is a prominent 'landmark' within the downtown core.</p> <p>Please refer to Change 9</p> <p>The intent is to improve the landscape setting for the Supreme Court and not about the management of building systems.</p> <p>Please refer to Change 10.</p> <p>The intent is to address security challenges and not seismic requirements.</p> <p>Please refer to Change 11.</p>
