2. SUBSTANTIVE COST ESTIMATE

Canada is seeking Costing Information from Industry in order to obtain financial approvals in advance of issuing the RFP. Failure to receive high quality costing information will result in delays to project approval for the implementation phase. The implementation phase is when the project will be able to release the RFP.

Two documents have been provided:

- the Costing Table Process explains the process and provides the proposed Terms and Conditions and Basis of Payment considerations which may impact the bid's price; and
- the Costing Spreadsheet which the Respondents are requested to complete and return to this positional mailbox: tpsgc.padmvihs-apivmpdhs.pwgsc@tpsgc-pwgsc.gc.ca

Canada is requesting submission of the Costing Information by 15 March 2022.

3. DOCUMENT FEEDBACK

Canada is inviting industry to provide written feedback on the content of the documents released. Feedback can be submitted to the Contract Authority at any time prior to the closure of the RFI. Industry is invited to suggest changes and improvements which Canada will consider with a view to improve capabilities and enhance competition. Feedback received may be integrated into the Wave 4 or Wave 5 release. Feedback received after the release of Wave 5 may be integrated into the RFP.

Canada is interested in hearing from the industry about the challenges and developmental efforts required to meet the requirements published in Wave 1, Wave 2 and Wave 3 documents that may preclude the industry from submitting substantive cost estimates by March 15, 2022.
